

3-Days Online Workshop on

Augmented Reality (AR)

(18 May - 20 May 2022)

Augment reality is a highly visual, interactive method of presenting relevant digital information in the context of the physical environment.

Free Registration – Limited seats

Last Date of Registration: 16 May 2022

Registration Link:

<https://cas.res.in/workshops.html>

- **Duration :** 3 - days
- **Timing :** 11 am- 5 pm
- **Eligibility :** B.Tech.
(4th Year CSE / IT /ECE)
- **Mode:** Online
- **Number of Seats:** 60

Date	Topic
18 th May	Creo Illustrate: Basic insight about creating rich 3D technical illustrations, 2D drawings, and interactive animated sequences that accurately reflect current product configurations and support formats from hard copy to augmented reality. It will set the foundation for an augmented reality strategy
19 th May	Vuforia studio: Repurpose existing 3D CAD data and animated sequences to build intuitive assembly, inspection, service and operating instructions. Efficiently integrate sensor and contextualized IoT data from the Thing Worx platform and enterprise system data.
20 th May	Introduction to Thing Worx: Connect disparate devices and applications to enable access to multiple data sources. Build complete IIoT solutions and augmented reality (AR) experiences quickly and easily. Analyze complex industrial IoT data for real-time insights, predictions and recommendations. Manage the performance of connected devices, processes, and systems.

Coordinators

**Mr. Divyanshu Chauhan
&
Mr. Gaurav Rai**
